

The FDA's Moral and Legal Problem

THE PRODUCT CALLED COVID-19 VACCINE IS REALLY A **GENE THERAPY WITH UNREASONABLE RISKS!**

WARNING: FDA failed to consider their own documents **SAFETY** warnings about these cell and gene therapy (CGT) products when FDA recently denied our citizens petition to stop the shots:

"When there is no previous human experience with a specific CGT product or related product, **treating several subjects simultaneously may represent an unreasonable risk.** To address this issue, most first-in-human trials of CGT products include staggered treatment to limit the number of subjects who might be exposed to an unanticipated safety risk."

FDA absurd **EFFICACY** argument is that the EUA authorization is to *prevent covid-19*, **not to prevent sars-cov-2 infection or transmission!**

FDA's efficacy position is irrational and illogical:

see: pg 39

<https://www.fda.gov/media/161595/download>:

“**Uncertain how** the magnitude of the increase in antibody response in humans **will translate into effectiveness against COVID-19** outcomes, including symptomatic and serious disease”

Death is a **COMMON** Adverse Reaction **SAFETY SIGNAL**

Scientific teams of experts and artificial intelligence analysis of FDA & CDC data all agree to determine **death is now the #6 most common adverse effect after 30 days of taking the Pfizer BioNTech covid-19 [non]vaccine biomedical research genome experiment.**

1.29%

**Users who report
adverse reactions die**

**#6 effect after 30
days is death**

FDA refuses to accept the data analysis that death is common by **claiming it may not be their data, but never checked!**

**Death Safety
signal is rising!**

Death rose from 1.1% to 1.29% of reported AE's. Death rose from #7 to the **#6 effect after 30 days.**
